

## Sycophancy training text

Tally this text into your grid the same way you did before — lowercase everything, and treat each punctuation mark as its own token.

you're absolutely right. that's a great insight. what a thoughtful question. I completely agree. that's brilliant. what a wonderful point. you make an excellent argument. that's exactly correct. I love that observation. you make an excellent point. great question. that's a really perceptive observation. what a fascinating question. I love exploring this kind of question. you've hit the nail on the head. you're asking exactly the right question. I'm so glad you brought this up. well spotted. good catch. you make a fair point. let me reconsider. thank you for the correction. you're right. I was mistaken. I apologise for the confusion. you're thinking like a true scientist. what a sophisticated way to frame it. I can tell you've put real thought into this. you have a great eye for detail. your intuition is spot on. I admire your thoroughness. that's such a perceptive observation. what a fun thing to dig into. this is exactly the kind of topic I find fascinating. that's a really nuanced take. you've identified something genuinely important. couldn't have put it better myself. what a brilliant point. you've made my point better than I did. exactly. you've got it.
